Preface

PART I: EMERGENCY TREATMENT, NEWBORN SCREENING, AND MOLECULAR TESTING

1. Emergency Assessment and Management of Suspected Inborn Errors of Metabolism and Endocrine Disorders, Susan A. Berry, Brandon Nathan, Georg F. Hoffmann, Kyriakie Sarafoglou
2. Newborn Screening, Andreas Schulze, Dietrich Matern, Georg F. Hoffmann
3. Molecular Testing for Endocrine and Metabolic Disorders, Johannes Zschocke

PART II: DISORDERS OF FUEL METABOLISM

4. Hyperinsulinism, Andrea Kelly, Charles A. Stanley
5. Mitochondrial Fatty Acid Oxidation Defects, Arnold W. Strauss, Brage S. Andresen, Michael J. Bennett
6. Glycogen Storage Diseases, David A. Weinstein, Karl S. Roth, Joseph I. Wolfsdorf
7. Organic Acidurias, Georg F. Hoffmann, Andreas Schulze
8. Ketone Synthesis and Utilization Defects, Claude Sansaricq, Sherly Pardo Reoyo
9. The Galactosemias, Karl S. Roth, Claude Sansaricq
10. Disorders of Fructose Metabolism, Claude Sansaricq, Manisha Balwani
11. Urea Cycle Disorders, Marshall L. Summar
12. Creatine Deficiency Syndromes, Andreas Schulze
13. Phenylketonuria, Peter Burgard, Ziaoping Luo, Georg F. Hoffmann
14. Hyperphenylalaninemia: Disorders of Tetrahydrobiopterin Metabolism, Nenad Blau, Beat Thony
15. Tyrosinemia and Other Disorders of Tyrosine Degradation, James V. Leonard, Andrew A.M. Morris
16. Disorders of Transsulfuration, Brian Fowler
17. Inborn Errors of Folate and Cobalamin Transport and Metabolism, Chantal F. Morel, David S. Rosenblatt
18. Oxidative Phosphorylation Diseases and Mitochondrial DNA Depletion Syndrome, Mark A. Tarnopolsky, Sandeep Raha
19. Disorders of Pyruvate Metabolism and the Tricarboxylic Acid Cycle, Douglas S. Kerr, Arthur B. Zinn
20. Diabetes Mellitus, Constantin Polychronakos, Costa Voulgaropoulos, Zubin Punthakee
21. Overweight and Obesity, Stephen B. Sondike
22. Lipids and Lipoprotein Abnormalities, Juergen R. Schafer, Muhdien Soufi, Julia Steinberger, Ertan Mayatepek
23. Defects of Cholesterol Biosynthesis, Dorothea Haas, Richard I. Kelley, Georg F. Hoffmann
24. Inborn Errors of Peroxisome Biogenesis and Function, Ronald J.A. Wanders
25. Congenital Disorders of Glycosylation, Christian Korner, Christian Thiel, Georg F. Hoffmann

PART III: DISORDERS OF THE THYROID GLAND

26. Disorders of the Thyroid Gland, Michel Polak, Guy Van Vliet

PART IV: DISORDERS OF THE ADRENALS

27. Congenital Adrenal Hyperplasia, Kyriakie Sarafoglou, Kathryn D. Harrington, Walter O. Bockting
28. Cushing Syndrome in Children and Adolescents, Maria Alexandra Magiakou, Kyriakie Sarafoglou, Constantine A. Stratakis, George P. Chrousos
29. Adrenal Insufficiency, Lynda E. Polgreen, Kyriakie Sarafoglou, Anna Petryk

PART V: DISORDERS OF GROWTH AND PUBERTY

30. Disorders of Growth, Stephen F. Kemp, J. Paul Frindik
31. Turner Syndrome, Constantine A. Stratakis, Kyriakie Sarafoglou, Bradley S. Miller
32. Developmental Disorders of the Anterior Pituitary, Brigitte Frohnert, Bradley S. Miller
33. Precocious Puberty, Melena Bellin, Kyriakie Sarafoglou, Brandon Nathan
34. Variants of Pubertal Progression, Betsey Schwartz, Kyriakie Sarafoglou, Christopher P. Houk, Peter A. Lee

PART VI: DISORDERS OF THE REPRODUCTIVE SYSTEM

35. Disorders of Sex Development, Eric Vilain, Kyriakie Sarafoglou, Nadir Yehya
36. Female Hypogonadism, Bala Bhagavath, Bruce R. Carr
37. Male Hypogonadism, Darius A. Paduch, Peter N. Schlegel
38. Adolescent Menstrual Disorders, Hilary Smith, Mitchell P. Rosen, Marcelle I. Cedars

PART VII: DISORDERS OF BONE AND MINERAL METABOLISM

39. Disorders of Calcium, Phosphate, and Bone Metabolism, Karl S. Roth, Robert J. Ward, James C.M. Chan, Kyriakie Sarafoglou
40. Disorders of Mineral Metabolism (Iron, Copper, Zinc, and Molybdenum), David M. Koeller

PART VIII: DISORDERS OF WATER METABOLISM AND TRANSPORT SYSTEMS

41. Disorders of Water Metabolism, Tim Cheetham, Stephen Ball
42. Disorders of Membrane Transport, Karl S. Roth

PART IX: SELECT DISORDERS OF COMPLEX MOLECULE BIOSYNTHESIS

43. Lysosomal Disorders, Gregory M. Enns, Robert D. Steiner, Tina M. Cowan
44. Purine and Pyrimidine Metabolism, William L. Nyhan

PART X: NEUROTRANSMITTER DEFICIENCIES

45. Neurotransmitter Disorders, Keith Hyland, K. Michael Gibson, Radhakant Sharma, Johan L.K. van Hove, Georg F. Hoffmann

PART XI: ENDOCRINE-RELATED NEOPLASIAS

46. Endocrine-Related Cancer, Constantine A. Stratakis, Karel Pacak, Jordan Pinsker, Andrew J. Bauer
47. Endocrine Problems in Pediatric Cancer Survivors, Thomas Moshang, Jr., Sogol Mostoufi-Moab

PART XII: ENDOCRINE AND METABOLIC LABORATORY AND RADIOLOGY TESTS

48. Laboratory Investigations of Inborn Errors of Metabolism, Tina M. Cowan, Chunli Yu
49. Endocrine Testing, Bradley S. Miller, Irene Hong McAtee
50. Radiographic Imaging, Kumud Sane, Shashikant M. Sane
