

Table of Contents

1 The prevalence and causes of hypertension 1

Gregory Y H Lip, D Gareth Beevers

2 Hypertension and vascular risk 10

Gregory Y H Lip, D Gareth Beevers

3 Pathophysiology of hypertension 20

Gregory Y H Lip, D Gareth Beevers

4 Blood pressure measurement, 27

Eoin O'Brien

Part 1: Factors influencing all techniques of blood pressure measurement, 27

Part 2: Conventional blood pressure measurement, 33

Part 3: Ambulatory blood pressure measurement, 38

Part 4: Self-blood pressure measurement, 43

5 Screening and management in primary care, 47

Gregory Y H Lip, D Gareth Beevers

6 Clinical assessment of patients with hypertension, 53

Gregory Y H Lip, D Gareth Beevers

7 Investigation in patients with hypertension, 57

Gregory Y H Lip, D Gareth Beevers

8 Non-pharmacological treatment of hypertension, 63

Gregory Y H Lip, D Gareth Beevers

9 The pharmacological treatment of hypertension and endovascular renal sympathetic denervation, 68

Gregory Y H Lip, D Gareth Beevers

10 Hypertension in patients with cardiovascular disease, 81

Gregory Y H Lip, D Gareth Beevers

11 Special groups; diabetes mellitus, renal disease, renal artery stenosis and connective tissue diseases, 87

Gregory Y H Lip, D Gareth Beevers

12 Ethnicity, age and hypertension, 93

Gregory Y H Lip, D Gareth Beevers

13 Hypertension, pregnancy and the oral contraceptives, 98

Gregory Y H Lip, D Gareth Beevers
